3. Please describe briefly how this study will add to existing knowledge in the field.

4. Please describe briefly how the research findings of this research will be utilized. Please indicate here how do you intend to report or disseminate the results of your study.
5. What is the projected duration of this study? Please note that research projects not complete within two years or the stated duration, whichever is shorter, will require a progress report to the IRB and may be subject to additional review processes.

6. Please briefly summarise the Principal Investigator's qualifications and experience relating to conducting studies of this nature.
   a. If you have co-investigators and/or research assistants for data collection for this study, please describe how you are ensuring that the recruitment and remuneration of your assistants/co-investigators is fair.

7. Please describe how confidentiality will be maintained for data collected for this study.

8. How have you minimized any other potential risk to a) participants and b) researcher(s) including assistants in this study?

9. Please attach the Participant Information Sheet that you will use in your application.

DECLARATION OF THE PRINCIPAL INVESTIGATOR

- I declare that I have read the AUWERC Mission Statement and Principles and am aware its role and principles and of the responsibilities set out in these guidelines.

- I declare that I am qualified and authorized to perform the research described in this document.

- I certify that the assistants in this research have been fully briefed on procedures and relevant ethical considerations.

- I undertake to inform the AUWERC of any changes to the proposed research or its details given in this form subsequent to its submission (including change of contact details).

- I agree to submit the mandatory FINAL RESEARCH REPORT upon completion of the research procedures outlined in this proposal.

- (If research or activity with experimental animals, Appendix A is attached and) I declare that the purpose of this research cannot be achieved by alternatives to the outlined use of animals.
